

HARDWOOD FLOORING

DESIGNED BY: *You*™

IBEX™ Hardwood Flooring is the rare building product that starts with your vision, then adds highly-skilled craftsmanship, quality materials and timely delivery to make it reality.

By combining the resources of the **IBEX™ Color Lab** and the **IBEX™ Imagination Station**, you can start with one of our most popular creations or create something no one has ever seen before. Your choice.

IBEX™ turns color, species, grade, detailing and configuration into design tools used to create exactly the look you want.

THE TRULY UNIQUE ARE SELDOM SEEN BUT ALWAYS APPRECIATED

- Select from a wide variety of domestic or exotic hardwood species.
- Choose either Character or Select Grade Flooring.
- Flooring textures and tones are infinite.
- Mix or match plank widths to create a more casual or formal appearance.
- Edge and face details are many.

Every IBEX™ floor is a rare creation; unique to your living space, and always **Designed by: You™**.

A ROADMAP TO YOUR FLOORING DESTINATION

Getting exactly what you want is easier than ever; seven basic decisions will put you on your way. Your decisions will be supported by the IBEX™ Color Lab and IBEX™ Imagination Station to deliver prototype samples. When the final prototype is just right, your vision will soon be reality.

BRINGING YOUR VISION TO LIFE

Vision needs substance to become real. The IBEX™ Imagination Station combines experienced, highly-skilled wood craftsmen with sophisticated milling equipment and hand tools to bring your vision to life.

Using limited-production milling machines, we produce prototypes until the look matches your vision. After approval, wood planks are put into full production to match the requirements of your job.

IBEX™ ENGINEERED PLANKS

3/4" planks have been carefully developed to meet special width and application needs. IBEX™ Engineered Planks exhibit the same wearability and aesthetic characteristics as IBEX™ solid wood planks.

IBEX™ COLOR LAB

Our finishing technicians know how different hardwood species take translucent and opaque stains and different protective finish coats. Using advanced mixing technology, they will match your color preference. Prototype samples are run on production equipment to provide real world samples. Once you approve the final prototype, the quantity of planks needed for your job are run on the same equipment.

STANDARD STAINS FROM THE IBEX™ COLOR LAB

These are our most popular selections. Custom colors in transparent or opaque stains can be formulated to meet your precise vision.
